

EXHIBIT 3

ALTERNATIVES FOR NEW SCOTLAND TO LEEDS TO PLEASANT VALLEY COMPONENT (§86.4)

In accordance with §86.4, as modified by the Procedural Order, this Exhibit 3 provides mapping of the initial alternative routes for the New Scotland-Leeds-Pleasant Valley component, as they have been considered to-date, and which will be further analyzed, as set forth in the Part B Application. In order to present the proposed alternative segments in context with the proposed alignment, the proposed alternatives have been overlain on the 1:24,000-scale topographic maps presented in Exhibit 2. Those maps are incorporated by reference into this Exhibit 3. Additional alternatives are expected to be identified in the public outreach process and will be fully evaluated in the Part B submittal.
